Wildland-Urban Interface of Hamilton County, Tennessee

Where buildings stand among, or against, wildland vegetation.

Hamilton County in Tennessee

Share of county land, 100 m neighborhood

Intermix 13.6% of county land

Wildland vegetation covers at least half the surrounding ground.

Interface 14.3% of county land

Within 2.4 km of a wildland patch of at least 5 km².

Not WUI 72.1% of county land

Outside both classes.

Percents are each class's share of mapped county land.
Unclassified ground, mostly water, is left out of the total.
Both WUI classes also have at least 6.17 buildings per km².

Building locations: FEMA WUI Structures V2.
WUI class: Carlson et al. 2022, USGS, 100 m neighborhood, from 2018 Microsoft footprints and 2016 NLCD.
doi.org/10.5066/P94BT6Q7
3 footprints fell outside the raster.
Hillshade: USGS 3DEP. Boundary: Hamilton County GIS.
